

# Mockup Review Notes

Creative Director: Cross Lawn

Designer: Tuesday Hadden

Contacted via FaceTime

Moving forward with Version 1

- Great at capturing overall feel and brand association
- Like the red

Big fan of the navigation bar design

- Can keep as is
- Maybe make D&D logo the home button like we went over in class

Adjusting alignment

- Making sure text box aligns with images, making sure images align with images, etc.
- Create even spacing around text within box
- Test out some sort of border/separation point around images for breathing room

Content

- Be sure to break up body text
  - Either with spacing or images
- Can cut down content to three total pages (Home/Overview, Gameplay, and History) if needed
